As a concerned American I am troubled by the actions taken over the past several years by the Justice Dept of the US. The time has come to end the expensive and time consuming case against MicroSoft. Please bring this case to a quick resolution. The American public has paid enough for what little has been and will be gained by this on-going case. It is clearly time to quickly and quietly let this case slip into history as another mistake made by the Clinton White House. Thank you for your prompt attention in this matter. Charles B. Todd
